Mehrkam Energy**Subject: Purchase Request for WAAD W505 / W506 Units (FOB China)**

Dear Mr. Iman Hoseini,

This Letter of Intent (LOI) is issued to formally express the interest of Petro Kavian Sanat Pars (PKSP) in requesting a price quotation for the two models listed below. Following our agreement, we will select **one of these two models** for the order:

Brand	Model	Quantity	Incoterm
WAAD	<u>W505</u>	240 units	FOB China
WAAD	<u>W506</u>	240 units	FOB China

Delivery Terms

- FOB China (port of loading to be confirmed)

Request for Clarification

Please kindly provide the following details in your official quotation or Proforma Invoice:

- Final unit price and total contract value
- Payment terms and conditions
- Delivery lead time and availability
- Any warranty and after-sales service conditions

Additional Request

If possible, please also review and advise, for each of the following destinations, the shipping arrangements, available routes, estimated freight cost and estimated transit time:

- Mersin Port, Turkey
- Karachi Port, Pakistan
- Bandar Abbas Port, Iran

We appreciate your prompt response and look forward to receiving your detailed offer.

Mohammad Mirdamadi
Board Chairman & Vice President

ANNEX — COMPANY BACKGROUND

About PKSP & Purpose of This Inquiry

Over the past two years, Petro Kavian Sanat Pars (PKSP) has been active in Iran's **utility-scale solar power market**, and currently holds a portfolio of more than **200 MW** of ongoing projects.

The company is now entering the **small-scale and commercial segment** of this market. The present price inquiry is issued precisely within this strategy: it represents an **initial test phase**. Subject to its success, the company intends to proceed with a **significantly larger investment** and substantially higher order volumes.

For this reason, we kindly ask that prices be quoted as competitively as possible. The most favorable pricing at this stage will maximize the likelihood of a successful test phase and of expanding the cooperation to larger volumes in the future — an outcome that would secure the **long-term mutual interest** of both parties.

For any further information, please feel free to contact **Mohammad Mirdamadi** directly at mirdamadi.mohammad@gmail.com. Please note that this is a personal email address; due to the current internet conditions in Iran, the company's own email server is temporarily out of service.
